

8x8 Games – Worksheet

Slimetrail

Before attempting to think about the problems we suggest you play a couple of games of Slimetrail. Here you find two situations of possible moments during a game of Slimetrail. It is the first player's move in every problem position.

What is the winning move?

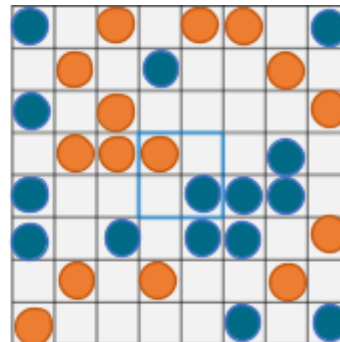

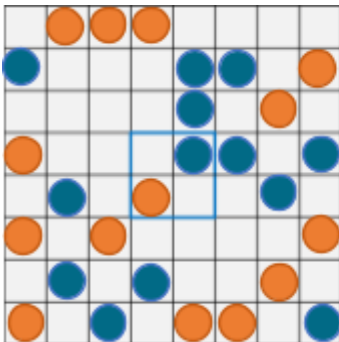

Tip: To find out you can draw the predicted path the piece will be alternatively moved in each situation.

Cats & Dogs

Before attempting to think about the problems we suggest you play a couple of games of Cats & Dogs. Here you find two situations of possible moments during a game.

Independent on who is going to play next, what is the best possible move?

Tip: You can mark the possible places each player can play and compare them.
